Big Horn County
COVID-19 Update/Response

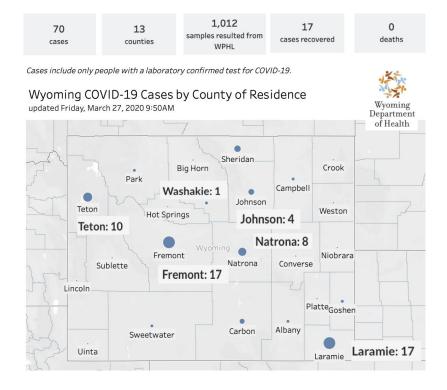

For Immediate Release

I will once again update you on the status of COVID-19:

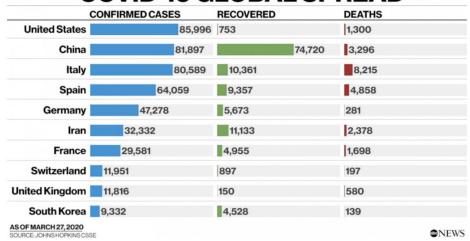

We now have 70 cases in Wyoming, that's up 40% in <24 hours. We have one new case in Washakie County. HOWEVER, we also have 17 people who have fully recovered and are not quarantined or hospitalized anymore. NO DEATHS.

We still have NO CASES in Big Horn County, with 11 tested recently. But I am sure we still have cases out there that have not yet been tested. We have had a shipment of new test kits to both hospitals in the county. However, the priorities for testing still have not changed:

- A. Hospitalized patients, who should be tested by the most expeditious means available (either a hospital lab, private lab, or the State Laboratory);
- B. Symptomatic Emergency Medical Service Personnel, healthcare workers, and law enforcement personnel;
- C. Symptomatic patients in nursing homes, long-term care facilities, or in congregate living facilities housing individuals who are medically fragile; OR
- D. Symptomatic high-risk unstable patients whose care would be altered by a diagnosis of COVID-19.

COVID-19 GLOBAL SPREAD

As the U.S. now leads the world in COVID-19 infections, it is important for us to work together to enhance your health. You and your family should be especially vigilant in avoiding others while the spread of COVID-19 continues. I encourage you to follow these safer at home protocols, and limit public exposure, including visits from young children who are often unaffected by the infection but may still spread it to you.

I had questions today about playgrounds. While I understand the kids need something to do, those surfaces on playground equipment are sources for all sorts of disease. DO THE FIVE, STAY ALIVE.

- Wash your hands often.
- Avoid close contact 6 -10 feet, with people outside your home
 - People may spread the virus before they have symptoms
 - It is especially important to stay away from people who are sick
- Stay home if possible.
- When possible have other people deliver your groceries and other household goods
- Avoid all discretionary travel.
- Clean and disinfect frequently touched services.
- Call if you have concerns about COVID-19 and your underlying condition or if you are sick.

Help stop coronavirus

- 1 HANDS Wash them often
- 2 ELBOW Cough into it
- 3 FACE Don't touch it
- 4 SPACE Keep safe distance
- 5 HOME Stay if you can

The COVID-19 virus remains a serious threat to the health, safety and welfare of all residents of Wyoming and Big Horn County, and further efforts are needed to address, control and reduce the evolving threat posed by COVID-19.

Because this disease is primarily spread from person-to-person, please adhere to *all three of the <u>State</u>*Health Orders, which as of today are extended until April 17th. "Curb the Spread, Keep your Head."

https://health.wyo.gov/publichealth/infectious-disease-epidemiology-unit/disease/novel-coronavirus/covid-19-orders-and-guidance/

Please do your part to stop the spread of COVID-19.

We have hope as those of you are now unemployed, a stimulus package is on its way.

DO THE FIVE, STAY ALIVE
Stay Home. Stay Distant. Stay Safe!
Counter COVID with Clean Counters!
Swerve the Curve!
Kick the Panic!
Curb the Spread, Keep your Head!

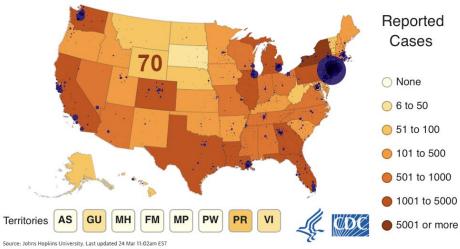

If you need help finding a health care provider or additional information on COVID call 211.

Respectfully,
David Weston, Fairbanks, MD, FAAFP
Big Horn County Health Officer
Medical Commissioner, State Emergency Response Commission,
Wyoming Office of Homeland Security
Medical Director, Wyoming State Parks EMS
Chairman Wyoming EMS for Children
Medical Director, Shell Volunteer Fire Department & EMS
Medical Director, Big Horn County Search & Rescue
Medical Director, Antelope Butte Mountain Recreation Area & Ski Patrol
